

CEHG17

Annual Symposium of the Center for Computational,
Evolutionary and Human Genomics

MONDAY, MARCH 6

9:00–10:00 AM | Breakfast and Check-in

MORNING SESSION

- 10:00–10:15 AM | Cody Sam, Katie Kanagawa, Carlos Bustamante // Opening Remarks
- 10:15–10:50 AM | Carlos Bustamante // The Future of Health Care and Rising Costs: What Can We Do About It?
- 10:50–11:10 AM | Tricia Deng // Function and Evolution of RNA Editing in Flies
- 11:10–11:30 AM | Sebastien Boyer // Influence of the environment fluctuation dynamics on the statistics, the dynamics and the strategies of adaptation.
- 11:30–12:05 PM | Ben Domingue // Analysis of genetic similarity among friends and schoolmates in the National Longitudinal Study of Adolescent to Adult Health (Add Health)
- 12:05–1:05 PM | Lunch

AFTERNOON SESSION

- 1:05–2:00 PM | **Carl Zimmer // The Library of Babel: On Trying to Read My Own Genome**
- 2:00–2:20 PM | Amy Goldberg // Ancient X chromosomes reveal contrasting patterns of sex bias in Neolithic and Bronze Age Eurasian migrations
- 2:20–2:40 PM | Katie Solari // Gene expression, not local adaptation, sufficient for pikas to occupy vast Himalayan elevational gradient
- 2:40–3:15 PM | Gavin Sherlock // Uncovering the joint distribution of fitness effects for beneficial mutations in yeast
- 3:15–3:35 PM | Coffee Break
- 3:35–3:55 PM | Genevieve Wojcik* // Detecting stabilizing selection on gene expression from allele specific expression data
- 3:55–4:15 PM | Christopher DeBoever // Genetic regulation of gene expression in human induced pluripotent stem cells
- 4:15–4:25 PM | Marcus Feldman // Closing Remarks

*Program note: Ziyue Gao has lost her voice, so Gen agreed to present at the last minute. Many thanks!
